I LOVE YOU

Li Vilstrup, Denmark, 1987
 89 min. | DK/Feature

A young couple underwent a month of psychotherapy. A video-taped record of the sessions was used for this film's recreation of the couple's love story; their life together and the breakup of their relationship (they are played by professional actors). The aim of Li Vilstrup's docudrama has been to point to conjugal problems that are likely to be encountered by everybody everywhere.
