90 min. | Series (fiction)

'Vakuum' is a webseries about three young people, Eva, Anton and Karl, who during the same 24 hours experience something crucial in their lives. On this day they have to face their fears and confront the big emotions they carry inside. An almost supernatural man enters the lives of the three main characters and gives each of them the push they need to move on. Despite the fact that they live in the same area, Eva, Anton and Karl don't know each other, but during the series their paths will cross for the first time. They realize that even though everybody is alone – nobody is alone.
