TIGERS

Tigers takes us into the very core of elite football. It's the true story about Martin Bengtsson - Sweden's most promising football talent since Zlatan Ibrahimovic. At sixteen, his lifelong dream comes true: he is bought by Italian top club Inter Milan. He steps into a world where performance is key, compliance and rules non-negotiable. It's the chance of a lifetime - but at what price? As he adjusts to a reality where everything and everyone are for sale, Martin finds it hard to tell sacrifice from submission, pleasure from pain, friend from foe. Deprived of anything resembling privacy or integrity, Martin is pushed dangerously close to the edge - until, finally, there's no turning back.
