DIGITAL WORKSHOP 1999

Prami Larsen, Denmark, 1999
 56 min. | Anthology

12 very different shortfilms produced during the Digital Workshop in the period from September 1998 till April 1999. The freedom in the visual imagery gained by the help of computers is hard to control - but at the same time it gives some fantastic and refreshing new moving images - images that might fit very well to a new, young generation of filmmakers.
