

Kassandra Wellendorf, Denmark, 1997
DK/Experimental

In IMPROMPTU, a new composition by Svend Hvidtfelt Nielsen the patterns of movements in nature are being processed. Both director and composer are referring to the flowing water of a stream. The idea is to get movements in nature to take part with sounds in the music. Make the vegetation in the water act or conduct the music as if "animating" nature through music. IMPROMPTU is the 5. part of the series LANDSCAPES.
