HEART-BREAK-CIRCLE

Per Morten Abrahamsen, Tim Feldmann, Denmark, 1999
 DK/Experimental

This dance-video is a 7 minuttet of 2 orgiastic physcallities on a filmic round trip. The video is an intense, highly dynamic and forever circling shot of dancers in a rumble with their bodies and the circumstance, recorded on 10 circular locations in Danish Copenhagen. This low-tech experiment, in motion and images, presents a wild texture of rapid editing "impossible" camera moves and tosses, distortion, and the lot.
