

MED DØDEN TIL FØLGE

EN | DA

Eva Mulvad, Denmark, 2011
59 min. | DK/Documentary

For the first time in Danish history the Danish judicial system has allowed an entire case to be filmed. The case concerns a man who killed his best friend with a Samurai sword - was it an accident or was it a deliberate act when the defendant wielded the sword? It is an emotionally charged case where much is at stake for the defendant, who has to re-experience the tragic night when his friend died, and who must also try to pull through a trial in which he faces a severe prison sentence.
