

Katia Forbert Petersen, Denmark, 1990
42 min. | DK/Documentary

It has always been a tragedy for a woman to be barren... »A Wanted Child« is a documentary that portrays a couple who cannot have children and the help science can give them - their last chance: a test tube baby! The film provides clear medical information - the Scandinavian way, frankly and explicitly - and leaves open the ethical question.

Basic information**Credits****Festivals & awards****Materials**
