Johan and his father have lived at sea for as long as Johan can remember. Or at least since Johan was three, when his mother disappeared. Johan likes the ship as it has a greenhouse where they grow carrots and it has fishing nets. Johan is a good diver and mechanic and helps his father repair the ship. One day, when Johan's father is out buying provisions and Johan is left alone on the boat, he receives a distress call on the radio containing a clue about his mother's whereabouts...
