ALL THOSE PRECIOUS MOMENTS

Lise Roos, Denmark, 1993

42 min. | DK/Documentary

A documentary poem which describes in a subtle and loyal tone the last period of life after you have grown old. The film focuses on a number of the problems with which life is connected in all its phases, but it does not emphasize the sad sides of old age - rather the unavoidable fact, and how its consequences with down-to-earth philosophy can become one of the substantial periods of life. »All These Moments« circles about a number of elderly people from different social classes. They give in their own way examples of qualities of life which you can find no matter how old you are, if you look for them.
