KLASSEKABALEN (OVERSIGT)

Ulla Søe, Denmark, 2015

TV series

"The Class Room" follows class 5.a at Rosenlund School in Skovlunde in good times and bad times from the middle of the school year up until they start 6th grade. The pupils are still children. They play and still put much emphasis on "childish" attitudes. For instance, the size of the cake slice each receives. But, they have also an increasing interest and sense of their own identity and are conscious of their evolving maturity. Soon they won't be "playing" anymore. Then it will be about "being together" instead. "The Class Room" is a series in 6 episodes.
