Danish Film Institute

The Danish Film Institute (DFI) supports the development, production and distribution of Danish films and offers funding for international co-productions.

Support programmes extend to digital games, film education and promotion at international film festivals. A minimum of 25 percent of all subsidies are earmarked for children and youth films.

Situated in central Copenhagen, the DFI houses the national Cinematheque and also includes a library, a stills and posters archive and a film studio where children and young people can explore the craft of filmmaking.

The DFI manages the film archives and runs a streaming website for Danish short and documentary films at filmcentralen.dk.
