ROOSTER DOODLE DOO

Pierre Greco, USA, 2014

76 min.

The mayor of St-Victor is proud of the economic dynamism and orderliness of his village. And he gives full credit for the villages vigorous success to one individual, his valiant rooster; an astonishingly loud and punctual rooster that awakens all the villagers at precisely 4 oclock in the morning - every day of the week. But some of the villagers have had quite enough of the roosters relentless early morning crowing...and decide to put a price on his head. They succeed in ousting the raucous rooster but the village immediately suffers negative consequences. Alarmed at the villages sudden social and economic downturn, a group of citizens will form a special squad to retrieve the bird.
